

“But I haven’t got a modern double bottomed boat!”

No problem – you’ll find great competition racing against other similar boats as well as those newer machines.

The more “Admirals Cuppers” that come,
better the racing will be for everyone.

You’ll be racing **BOTH** for the main prizes **AND** highly desirable Admirals Cup prizes which are exclusive to boats with buoyancy built to the “old rules” at every event. This is the only difference between you and those with double bottomed boats. When it comes to the great social events all will enjoy the great camaraderie and friendship for which our class is renowned.

More people seeing how competitive these boats are,
will help them retain their value.

Admirals Cuppers came 1st, 2nd, 4th & 5th in the South West Travellers Trophy, 4th & 6th in the Consistency Trophy, 5th in the Thames Area and took all the prizes in the Northern Area in 2002. Many open meetings were won by Admirals Cuppers.

Don’t be shy – give the Gill Series a try
& enjoy some big fleet racing!

Hope to see you there!
David Wilkins
