

“But I haven’t got a modern double bottomed boat!”

No problem – you’ll find great competition racing against other similar boats as well as those newer machines.

**The more “Admirals Cuppers” that come,
better the racing will be for everyone.**

You’ll be racing **BOTH** for the main prizes **AND** highly desirable Admirals Cup prizes which are exclusive to boats with buoyancy built to the “old rules” at every event. This is the only difference between you and those with double bottomed boats. When it comes to the great social events all will enjoy the great camaraderie and friendship for which our class is renowned.

**More people seeing how competitive these boats are,
will help them retain their value.**

Admirals Cuppers came 9th and 10th in the in the overall Gill Series 2003 results, with 47 entries in the Series. Many other open meetings were won by Admirals Cuppers.

**Don’t be shy – give the Gill Series a try
& enjoy some big fleet racing!**
